GEORGE J.J.T.A. HAYWARD, Optimist

george@hayward.fyi • LinkedIn • HackerRank • Github • Tableau • Law • Finance • Stand-Up

Data Scientist - 8 yrs. experience & training. Led Biz Analytics at Google startup (SQL/Python/R). Skilled orator. Mom worked as a bus monitor; Dad was disabled. They taught optimism, work ethic, & creativity.

Quotes From George's Google Colleagues:

- "George has been incredibly hungry to learn anything and everything he can about SQL, Dremel (BigQuery), and analysis, and he's tackled a wide variety of projects that incorporate these. George and I worked on a number of data science + analysis projects together where he built these skills, including:

    - Linear regression to predict number of sessions for a user
    - Daily metrics emails and dashboards
    - Fraud detection

    In addition to his analysis work, George was a great addition to our team culture, particularly with his comedy :)"

    –Mike R., *Senior Software Engineer*

- "I have worked with few people as tenacious and determined as George John Jordan Thomas Aquinas Hayward, JD MBA. When I sit down with George, I know that I am going to get thoughtful, deep insight into whatever problem we are discussing. Once you get George on the scent of a solution, you better not try and stop him. I love that George is willing to dig deep to figure out how to help you get the answer you're looking for, while keeping in mind the larger team and company goals."

    –Evan G., *Head of Ecommerce*

- "George has the most "can-do"est of attitudes! No analysis tasks feels too complex or insurmountable if you discuss it with him. Working with him makes me feel like we can figure everything out, from shipping/return policies to subscription pathways."

    –Rani M., *UX Design Lead*

- "You give such insight and thoughtful time and consideration into every project and every person you encounter. To say I admire and am inspired by your positivity, natural wit, and humor would be an understatement."

    –Katie B., *Business Operations Coordinator*
